Holly, thanks for sending these along. I did receive these and we are working on a final solution. I have an Administrative Order on Consent routing that incorporates the fixes/solutions. Not sure where it is but yesterday it was with EPA counsel.

Hey Chris,

Mr. Brown sent the following email a few weeks ago. I thought he sent a similar one that you were copied on after this one so I didn't follow up. Do you mind looking at the pictures in the following email and let him know what you think?

Thank you,

Holly

Mary  
Here are pictures showing the 2 crossings you can see they are at grade also way out of water  
Also the place they want me to put a plug although I believe the crossings would accomplish  
the same results as the plug I am still willing to build the plug.  
Would like to start as soon as possible because it is dry and less water  
Thanks Henry
